

**Families needed to help water
the Learning Gardens this summer**

**Please help us keep the gardens watered this summer
that we may enjoy them in the fall.**

We are busy planting our gardens here at school. The first graders have added annuals to the **pollinator gardens**, the kindergarten is planting a **Native American three sister's garden**, the third grade is planting a **pizza garden**, the PS and JK will put in a **sensory garden**, and new this year will be the **Chef's Garden!** We are planting herbs, carrots, cukes, potatoes, tomatoes, and onions for Chef Gerry to use in our wonderful lunches!

*Please consider volunteering for a week of watering
(2- 3 times during the week).*

There are two areas: the **LS entrance** and the **raised bed gardens**. Each area will be set up with hoses and sprinklers so it's a matter of turning the water on and monitoring the process. While you wait you can harvest veggies from the beds, have the kids play on the playground, and look for butterflies in the pollinator gardens!

DATES:

June 15-21

June 22-28

June 29- July 5

July 6-12

July 13-19

July 20-26

July 27- Aug. 2

Aug. 3-9

Aug.10-16
